

CT-118

BALL PARK TOBACCO BARN , Southern Maryland Boulevard (MD Route 4)
Chaneyville late 19th century
Private

Standard in its hewn post-and-beam construction, this tobacco house is unusual, however, because of its size. With 24' x 40' being average and 24' x 32' found occasionally, this tobacco house measures only 20' x 24'.
